

Stay Informed & Save on Prescription Medications in MyChart

You can now use MyChart to view the status of your prescription medications, estimate your insurance coverage and see possible discount cards.

To get started...

1. Log in or access your MyChart account. No account? No problem. Sign up now [here!](#)
2. From the **Menu** search or scroll for the **Prescription Price and Status** activity under the My Record category.
 - a. The first time you use the activity you will need to consent to using the third-party integrated solution.
 - b. If using the mobile app the activity will open in your browser.
3. Review your prescription authorization status. If available, your cost and any discount cards identified by the vendor will also appear.
 - a. The insurance status **Ready to be filled** means the prescription successfully sent to your pharmacy. The actual status of the filled prescription will not appear here.
 - b. If the price estimate appears as **Unavailable in MyChart** you can message your providers office for assistance or contact your insurance directly.
4. You can update the pharmacy you would like to review your benefits at, if desired.
 - a. The pharmacy information is listed after all medications so you may need to scroll to see the selection.

Prescription Price and Status

Medications for **Kayla Zaborcud** Powered by **covermymeds**

Below is a summary of your current medication list.

Your insurance status

If you plan to use your insurance, some prescriptions require additional information from your doctor before coverage is approved. If you have a prescription under review, you can check the status below.

Discount cards

The discount card is an alternative to using insurance. Many medications qualify for discount cards that can be used at participating retail pharmacies. To use, click "get discount card" for each medication and print or show the digital card to your pharmacies. Prices shown are estimates.

For additional pharmacy pricing options for these medications please visit scripthero.com

MEDICATION	INSURANCE STATUS	INSURANCE PRICE ESTIMATE	DISCOUNT CARD ESTIMATE
